

Versatile. Durable. Efficient.

5064 Horizontal Grinder

DuraTech's versatile NEW 5064 Horizontal Grinder is built to meet all your grinding needs. Not only is the 5064 available on either a track or trailer, but you can also choose from three different levels of CAT Tier III horsepower ranging from 475 hp (354 kw) to 630 hp (470 kw).

The large feed opening and 64 in. hammermill maximize grinding capacity and minimize job time. This mid-sized grinder increases your efficiency and maximizes your investment.

9564 Industrial Horizontal Grinder

With a 40 x 60.5 inch feed opening and a CAT C27 1050hp Tier II diesel engine, this massive machine can grind an entire tree, branches or wood pallets. Equipped with an enclosed engine compartment producing the lowest decibel reading in its class and the only self-cleaning air intake system on the market, the 9564 is heavy duty and safe.

With the downward drive of the hammermill, more debris will stay contained. The 9564 Industrial Horizontal Grinder makes grinding easy.
